About

As I am a faculty in Endodontics with 33 years of clinical experience. I would always prefer conservation of tooth and inspire students for the same. I would also like to treat patients related Aesthetic issues in dentistry. I love to educate and inspire students for recent advancements i.e. Microscopic surgery, lasers and much more while keeping balance between technology and humanity. Apart from routine endodontic treatment I provide demonstrations to the students regarding microscopic surgery and Aesthetic rehabilitation especially.
