Certain revisions in post graduate curriculum has been suggested by the H.O.D of Orthodontics and Dentofacial Orthopedics . It involves introduction of newer clinical treatment modalities for the post graduate students.

It was suggested by Dr. Aakash Shah to introduce following new clinical treatment modalities

**For first M.D.S.**

- 1.Addition of mini implants as a clinical adjuvant in various clinical treatment
2. Detail Understanding of CBCT derived data for diagnosis and better treatment planning
- 3.Addition of clear aligners as a completely invisible treatment modalities

**For second M.D.S.**

1. Addition of advance applications of Miniimplants in the form of Anterior Ramus Screw, MARPE, Miniimplant supported distalization
2. Integration of intra-oral scanning and CBCT data for increasing the treatment efficacies

All the members unanimously agreed to the suggestions. Dr. Hiren Patel asked to include suggestions in course curriculum of Conservative Dentistry and Endodontics and send it to academic council for approval.
