Immunization Policy

Policy statement

Dentistry is a health care profession which has the potential to expose the practitioner to infectious diseases. Immunizations substantially reduce both the providers' susceptibility to these diseases as well as the potential for disease transmission to other dental health care providers and patients. Thus, immunizations are an essential part of the prevention and infection-control programs at AMC Dental College and Hospital. It's important for individuals in college to be aware of and adhere to this immunization policy to promote a safe and healthy learning and working environment.

AMC Dental College and Hospital has appointed Dr. Bela Dave as an vaccination incharge, she will look after the immunization protocols being followed in the institution. AMC Dental College and Hospital conducts a survey through google forms which contains information such as student's name, students ID, vaccination status of Hepatitis B, if not vaccinated, they have to state the reason for the same. These google forms will be circulated to all the Head of Department and respective academic year coordinator to analyze immunization status of Hepatitis B of medical and paramedical staff as well as undergraduate and postgraduate students admitted each academic year. Responses of google forms will be scrutinized under the supervision of Dr Bela Dave. AMCD recommends Hepatitis B vaccination for all students, medical and paramedical staff. The students who are not vaccinated will be counselled by vaccination incharge to know the reason behind not taking vaccine. After counselling, a list will be formulated of the students who are willing to take vaccine duly signed by vaccination incharge which then will be forwarded to the Dean of AMCD. After verifying the list, it will be forwarded to the Head of Department of Pathology of the affiliated medical college i.e. AMCMET Medical College and LG Hospital. AMCD ensures the provision of the above mentioned vaccines for those who are willing to be vaccinated. Vaccination report of the vaccinated students will be obtained.
