Orientation for Campus Recruitment

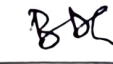

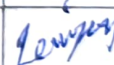

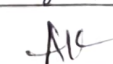

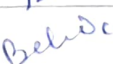

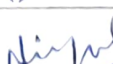

Circular

Following workshop has been arranged by college council for MDS Part-3 & intern students under employability skills development scheme.

Date :- 30/05/2023
Time :- 09:00AM to 10:00AM
Topic :- Orientation for Campus Recruitment
Venue :- Auditorium Hall , Ground Floor, AMC Dental College
Speaker :- Dr. Jaimin Patel, MDS
Head-2 Pearls Multispeciality Dental Clinics and Dental Implant Centers

All the Part-3 post graduate students and interns students are instructed to attend the programme. All AMCDC alumni and MDS Part-2 can attend the programme. All HODs are informed to thus make required clinical and teaching arrangements for the same.

VALUE ADDED COURSE ON FOUNDATION COURSE ON IMPLANTS: BASICS AND DIGITAL

ACADEMIC YEAR 2023-24

1. Nomenclature of the Course:

VALUE ADDED COURSE ON "Foundation course on implant: basics and digital"

2. Background:

The primary aim of modern dentistry has been to restore the patient to normal contour, function, comfort, esthetics, speech and health by removing a disease process from a tooth and replacing teeth with a prosthesis. Dental implants have emerged as beacon of hope in its ability to achieve this aim regardless of the atrophy, disease or injury to stomatognathic system. Dental implants are widely utilized in contemporary dental practice with predictable long-term results. Commercially pure (Type IV) titanium is the material of choice for dental implants, however, in recent years, titanium alloys and zirconia implants are becoming increasingly utilized.

3. Scope & Importance of Foundation course on Implants for Undergraduate Students

Dental implants are generally very durable and closely replicate the look and feel of a natural tooth when covered with a crown. They offer many benefits over available alternatives. It is known for its durability, prevention of bone loss, natural look, restoring cosmetic appearance of the face. It improves the patients, quality of life. These are the reasons implants are now the gold standard and the future of dentistry cannot be imagined without them.

4. Educational Objective:

Giving basic implant foundation knowledge as well as introducing newer trends among the interns and Postgraduates of AMC Dental College and Hospital.

5. Objectives of Value-added Course:

To equip upcoming interns and post graduate students with the emerging trends in Oral implantology.

6. Offering Institute and Faculty:

The Course will be offered at AMC Dental college and Hospital, Ahmedabad.

7. Who Can Participate in the Course

It is a value-added course for interns and postgraduates of AMC dental college and Hospital. Any interested intern and postgraduate from AMC dental college and Hospital can participate in the programme.

8. Admission Process of the Course

All interested students/candidates will be admitted to the course on first-come-first serve basis.

9. Duration of the Course

The course is divided into two parts which spans across 3 days. It consists of three modules and 21 hours of learning: Surgical Module, Prosthetic Module and advanced impression techniques in implant prosthesis.

10. Intake Capacity: 10 students in a batch

11. Course Fee: There will be no fee for the course.

12. Course Content

I. Surgical Module

- History of Dental Implants
- Natural tooth VS Dental Implant
- Advantages of Implant
- Parts of Dental Implant
- Osseointegration VS Fibro integration
- Radiographic assessment, CBCT reading & introduction of surgical Guide for Easy Implant placement.
- Bone Qualities
- Case Selection & Treatment Planning
- Indications & Contra-indications
- Armamentarium & Sterilization
- Surgical Protocol
- Implant complications

II. Prosthetic Module

- Basic lecture on different prosthetic options in implant prosthodontics.
- Introduction to different prosthetic components in implant prosthodontics

- Placement of healing abutment (second stage surgery)
- Various impression techniques
- Various abutment options and abutment placement
- Provisionalization
- Various occlusion scheme in implant prosthodontics
- Final prosthesis options
- Overdenture
- Cement retained prosthesis.
- Screw retained prosthesis.
- Hybrid denture
- Cementation of final prosthesis
- Maintenance phase
- Advancement in implant prosthodontics

III. Discussion of various clinical implant case.

IV. Advanced impression techniques for implant prosthesis

- Gain an understanding of the implant workflow including importing Implant library's & Scan Bodies.
- Design Single Unit Implant Restorations including Customised Abutment, Screw Retained crown and Anatomical Abutments.
- Design Short Span Implant Bridge
- Design an Implant bar.
- Generate implant model with separate soft tissue
- Create a Diagnostic Model
- Engine in Dental System.
- 3D print the digital mockup, and post process.
- Understand clinical transfer methods.
- Understand methods and concepts for final restorations.

V. Demonstration of Live surgical implant placement in patient

Reference Books on Oral Implantology.

1. Contemporary Implant Dentistry by Carl E. Misch .
2. Dental Implant Prosthetics by Carl E. Misch .
3. Surgical Complications in Oral Implantology by Louie Al Faraje .
4. Oral Implantology Surgical Procedures by Louie Al Faraje .
5. The Single Tooth Implant by Dennis P. Tarnow and Stephen J. Chu .
6. Functional Occlusion from TMJ to Smile Design by Peter F. Dawson .
7. Misch's Avoiding Complications in Oral Implantology by Carl E. Misch .

13. Course Delivery Methods/Pedagogy

- ❖ Didactic lectures and interactive sessions.
- ❖ Participation in Seminars/Guest Lectures/Workshops.
- ❖ Hands-on on models and live demonstration.

14. Award of Certificate

The students completing 80 % attendance will be awarded the course completion certificates.

AMC DENTAL COLLEGE AND HOSPITAL

DEPARTMENT OF CONSERVATIVE DENTISTRY AND ENDODONTICS ACADEMIC YEAR 2023-2024

VALUE ADDED COURSE IN AESTHETIC DENTAL CLINIC

1. **Nomenclature of the Program:**

Value added course on aesthetic dental clinic

2. **Background:**

Discoloration, Fracture and caries in anterior teeth are most common complains of patient in aesthetic zone these days. Dental aesthetic clinic play a pivotal role in addressing not just oral health but also in enhancing the aesthetic appeal of an individual's smile. A beautiful smile can significantly impact one's confidence and overall appearance. Therefore, Department of Conservative Dentistry and Endodontics has established Aesthetic Clinic to treat patients concerning problems in aesthetic zone.

3. **Scope & Importance:**

This clinic offer a wide range of cosmetic procedures such as teeth whitening, direct and indirect veneers, and restorative procedure like tooth coloured fillings to restore damaged teeth to improve the appearance of the smile. Endodontists assess and plan treatment considering both functional and aesthetic aspects. Aesthetic improvement of smile significantly impact an individual's confidence and self-esteem, encouraging social interaction and improving overall well-being and overall quality of life of the patients. Some patients seek aesthetic treatments before special events like weddings, graduations, or job interviews to enhance their smile's appearance for these important occasions. Many individuals desire a smile that they feel proud of and that reflects their personality. Aesthetic dental treatment help them to achieve the smile they envision, leading to greater personal satisfaction.

4. **Educational objective:**

The post graduates and interns are trained to treat and manage cases related to aesthetic zone. Post graduates undergo training in form of presenting seminars and attending workshop which helps them to render various types of aesthetic treatment (endodontic and restorative treatment) for patients which includes tooth whitening procedures (Bleaching), Smile designing (Veneers), Diastema closure & aesthetic fillings, Inlay/onlay composite/ceramic restorations. Similarly, Interns are asked to observe and assist the post graduates which make them to understand that treatment for patients having problem in aesthetic zone needs holistic approach.

5. **Holistic Objective:**

The endodontist, however, is not alone and has to collaborate with multidisciplinary team that includes dermatologist, periodontist, orthodontists, prosthodontist, craniofacial plastic surgeon, oral and maxillofacial surgeon and nursing staff. Each of them bring unique perspective to esthetic procedure and their expertise enriches the

patient outcome tremendously. This training will help endodontist in providing good comprehensive aesthetic and functional care to patients.

6. Inspirational objective:

The resident will develop qualities such as innovation, compassion and modesty which aids in serving society better.

7. Overall Objectives:

To develop the confidence among postgraduate students to learn the complete aesthetic management of patients, based on full analysis of endodontic and aesthetic considerations of each case.

8. Who Can Participate in the Course

The interns, post graduates at Amc Dental College and Hospital can participate in the course.

9. Admission Process of the Course

All interested students/candidates will be admitted to the course on first-come-first serve basis.

10. Duration of the course : 45 hours

11. Course Fee: There will be no fee for the course.

12. Award of Certificate

The students completing 80 % attendance will be awarded the course completion certificates

13. Training content and Methods:

Some of the aesthetic cases coming to Department of Conservative Dentistry & Endodontics are treated by Interns in aesthetic clinic, others by PGs.

The students educates and motivates the patients regarding aesthetics and smile designing. The patients are also counseled through audio visual IEC (Informative, Education, and Communication) material in English/ Gujarati language by student/staff of Department of Conservative Dentistry & Endodontics.

All the details of patients treated in aesthetic clinic are stored (filled) in work-done register & duly managed by Department of Conservative Dentistry & Endodontics.

The Interns from department of Conservative Dentistry & Endodontics are posted in aesthetic clinic on rotation bases every Tuesday and Wednesday from 3 pm to 4:30 pm.

Various treatment modalities provided by aesthetic clinic are :-

- Tooth whitening procedures (Bleaching)
- Smile designing (Veneers)

- Diastema closure & aesthetic fillings
- Inlay/onlay composite/ceramic restorations (tooth coloured)

Module on Digital smile design

It involves the use of digital imaging software to create a virtual 3D model of the teeth and gums of a patient. This model can then be used to design a custom treatment plan to improve the appearance of the smile. This technology can also be used to show patients what their smile will look like post-treatment, thus helping them make informed decisions about their dental care

- Esthetic Digital Smile Design: Introduction and View
- DSD Method and Protocol
- Acquisition and Import of Digital Images
- Analysis Components for Face and a Smile
- Facial Analysis
- Dento-gingival Esthetics Analysis
- Dental Esthetics Analysis
- Digital Image Editing and Planning

The standard operating protocol

1. Patients from conservative OPD are transferred into Aesthetic clinic (After being checked by PG and staff in-charge).
 2. Once patient comes to the aesthetic clinic, his/her details are entered into the register maintained.
 3. Next the diagnosis of the patient is done, Counseling of patient is done and then Treatment modalities are explained through digital display or Chart/model display .
 4. After proper treatment planning & patient counseling if patient agrees, his/her consent is taken.
- All radiographic records & photographic records are taken
5. Maintenance of bill register.
 6. Follow-up
