National Oral Pathologist Day 2024: A Report

Introduction:

25th FEB is celebrated as a **National Oral Pathologist Day** in remembrance of birth anniversary of **DR.HM DHOLAKIA SIR** first PG teacher of Oral Pathology in INDIA. This year, as 25th Feb 2024 was on Sunday, the Department of Oral and Maxillofacial Pathology and Oral Microbiology at AMC Dental College commemorated National Oral Pathologist Day On February 26, 2024. This annual event serves as a platform to raise awareness about oral health and pathology among students and professionals alike. The event featured various activities, including a model-making competition for first-year BDS students and H&E pencil sketch competition with participation from 82 students.

Inauguration:

The event commenced an inaugural ceremony presided over by Dr. Dolly Patel, Dean of AMCDental College with lighting the lamp with all department HOD's.

Competitions:

The highlight of the event was the model-making competition, which saw enthusiastic participation from first-year BDS students. The competition provided a platform for students to showcase their creativity and understanding of oral pathology concepts through innovative models. Participants demonstrated their grasp of **Dental Anatomy and Dental Histology** of their learning and practical skills.

Simultaneously, the H&E pencil sketch competition witnessed an impressive turnout, with 82 students showcasing their artistic talents. Through intricate sketches, participants depicted various aspects of oral pathology, capturing the intricacies of anatomical structure. The competition not only fostered artistic expression but also deepened participants' appreciation for the visual representation of dentistry.

Students were awarded prizes and certificates for their exemplary entries in model making and pencil sketch competitions, celebrating their creativity and skill in both artistic and technical realms.

Department Activity Display:

Following the competitions, a brief video presentation showcased the dynamic activities of the Department of Oral Pathology at AMCDental College. The video provided insights into the department's academic initiatives, research endeavors, and community outreach programs. By highlighting the department's contributions to education and healthcare, the presentation underscored its pivotal role in advancing the field of Oral Pathology.

Conclusion:

The commemoration of National Oral Pathologist Day 2024 at AMCDental College was a resounding success, thanks to the collective efforts of faculty, students, and staff. The event not only celebrated the importance of Dental Anatomy and Oral Pathology but also served as a platform for learning, creativity, and professional development. Through engaging competitions and informative displays, participants gained valuable insights into the intricacies of oral health and pathology. As the event concluded, it left a lasting impression, inspiring a renewed commitment to excellence in oral healthcare and education.
