Fire Extinguisher Training Program Report

A Fire Extinguisher Training Program was successfully conducted on 09th April, 2026 at AMC Dental College campus for all teaching, non-teaching staff, housekeeping staff, security staff, electric department and civil department to create awareness regarding fire safety, protection and extinguishment. The program was conducted by fire officer of Ahmedabad Municipal Corporation who explained the different types of fire extinguishers and their proper usage during emergency situations. All the participants were informed about various classes of fire, safety precautions, and basic fire prevention measures. A live demonstration was also carried out where participants were shown the correct method of operating fire extinguishers. The session was interactive and informative. Participants actively took part in the practical demonstration and gained basic knowledge about handling fire emergencies safely. The training program helped improve awareness regarding fire safety measures and enhanced the confidence of participants in handling emergency fire situations effectively.
