

Oral Pathologist Day 2026
Organized by the Department of Oral Pathology &
Microbiology
AMC Dental College & Hospital

Event Overview

The Department of Oral Pathology & Microbiology celebrated *Oral Pathologist Day 2026* with academic excellence and creative engagement in the Oral Pathology Laboratory. The event was structured to deepen students' understanding of Oral Pathology as a core diagnostic discipline while promoting creativity, confidence, and independent thinking.

Inaugural Ceremony

The celebration commenced with the traditional **lighting of the ceremonial lamp**, symbolizing the illumination of knowledge and scientific truth.

Educational and Amusing Skit – Understanding Oral Pathology

Students presented an engaging and insightful skit highlighting:

Objective:

- The real-world importance of Oral Pathology
- Its role in diagnosis and biopsy interpretation
- Clinical correlation between lesion and histology
- Breaking the myth that Oral Pathology is purely theoretical

The performance demonstrated how oral lesions are examined, biopsied, and microscopically diagnosed, emphasizing the vital contribution of oral pathologists in comprehensive patient care.

Free-Hand Wax Carving Activity

A **Free-Hand Wax Carving Competition** was conducted to assess:

- Precision and manual dexterity
- Independent visualization skills

Students carved various models **without predefined templates or tracings**, showcasing their conceptual clarity and hands-on craftsmanship. The activity encouraged self-expression and practical interpretation of morphology.

Free-Hand Origami Activity – H & E Theme

A unique **Free-Hand Origami Activity** was organized using colored papers symbolizing:

- **Hematoxylin (H)** – Purple
- **Eosin (E)** – Pink

Students participated enthusiastically.

Afternoon Session – E-Poster Presentation

The afternoon session featured student **E-Poster presentations** on key Oral Pathology topics such as:

- AI and Oral Pathology
- Red and White lesions of oral cavity
- Forensic dentistry

Participants were evaluated on:

- Scientific depth
- Clinical relevance
- Presentation skills
- Research accuracy

The session fostered analytical thinking and evidence-based academic discussion.

Prize Distribution Ceremony

The program concluded with a prize distribution ceremony where winners of:

- Free-Hand Wax Carving
- Free-Hand Origami
- E-Poster Presentation

were felicitated with certificates and appreciation by the Competition Judges and faculty members.

Educational Significance

The celebration successfully:

- Strengthened conceptual understanding of Oral Pathology
- Encouraged self-directed creativity
- Integrated clinical relevance with foundational sciences
- Enhanced student participation and confidence

Oral Pathologist Day 2026 reaffirmed that Oral Pathology is the cornerstone of accurate diagnosis and scientific dental practice.
